### From Father Kasel

Praised be Jesus Christ through Mary!  
Dear Brothers and Sisters in Christ Jesus,  
On January 22, our nation will commemorate the 47<sup>th</sup> anniversary of the fateful *Roe v. Wade* United States Supreme Court decision that permits the practice of abortion in our country. The act of abortion is contrary to will and law of God. Our good Lord gives human life to individual persons, beginning at conception, and only He has the authority to determine the timing of death for a human person. The practice of abortion in our country and world puts our society and culture against God and His plan for the human family. In light of this reality, we are called to lend our voice to our unborn brothers and sisters and to all in our world whose lives are rejected. Let us remember in prayer those who have been most deeply wounded by abortion: aborted children and mothers and fathers who have chosen abortion. Our good Lord's mercy seeks to heal the wounds of abortion, especially those who have been most affected by abortion. Jesus desires that we all work with Him to help hearts receive His love and mercy after abortion. He desires to forgive – which will stop the cycle of misery and death that surrounds abortion. I include this week a collection of quotes from various Catholic sources about the dignity of human life:

#### On how to understand the Right to Life - Pope Francis

"Is it right to take a human life to solve a problem? It's like hiring a hitman; Violence and the rejection of life are born from fear; (parents who learn of a child with a disability need) real closeness, true solidarity to face reality, overcoming understandable fears."<sup>1</sup>

#### On the Fundamental Right to Life - Pope Emeritus Benedict XVI:

God's love does not differentiate between the newly conceived infant still in his or her mother's womb and the child or young person, or the adult and the elderly person. God does not distinguish between them because he sees an impression of his own image and likeness (Gn 1:26) in each one.<sup>2</sup>

[L]ife is the first good received from God and is fundamental to all others; to guarantee the right to life for all and in an equal manner for all is the duty upon which the future of humanity depends.<sup>3</sup>

#### U.S. Conference of Catholic Bishops:

[T]he failure to protect and defend life in its most vulnerable stages renders suspect any claims to the 'rightness' of positions in other matters affecting the poorest and least powerful of the human community. If we understand the human person as the "temple of the Holy Spirit" – the living house of God – then these latter issues fall logically into place as the crossbeams and walls of that house. All direct attacks on innocent human life, such as abortion and euthanasia, strike at the house's foundation. These directly and immediately violate the human person's most fundamental right – the right to life. Neglect of these issues is the equivalent of building our house on sand. Such attacks cannot help but lull the social conscience in ways ultimately destructive of other human rights.<sup>4</sup>

#### Abortion - Pope Emeritus Benedict XVI:

Children truly are the family's greatest treasure and most precious good. Consequently, everyone must be helped to become aware of

the intrinsic evil of the crime of abortion. In attacking human life in its very first stages, it is also an aggression against society itself. Politicians and legislators, therefore, as servants of the common good, are duty bound to defend the fundamental right to life, the fruit of God's love.<sup>5</sup>

## U.S. Conference of Catholic Bishops:

Among important issues involving the dignity of human life with which the Church is concerned, abortion necessarily plays a central role. Abortion, the direct killing of an innocent human being, is always gravely immoral (The Gospel of Life, no. 57); its victims are the most vulnerable and defenseless members of the human family. It is imperative that those who are called to serve the least among us give urgent attention and priority to this issue of justice.<sup>6</sup>

## In Vitro Fertilization - U.S. Conference of Catholic Bishops:

What is wrong with in vitro fertilization (IVF)? IVF is a reproductive technology in which a new human being is conceived by joining egg and sperm in a glass dish, not in the mother's body. IVF further depersonalizes the act of generating a child, turning it into a technical process in a laboratory. The IVF procedure is so far from a loving act of the spouses that it can even be used to conceive a child if neither of them is alive, for the body of neither one is involved in the act of generating this life once sperm and egg are obtained and stored. Because these embryos are deliberately created not in the nurturing environment of the mother's body but in the poor substitute of a culture in a glass dish, the great majority of them die.<sup>7</sup>

## Embryonic Stem Cell Research - U.S. Conference of Catholic Bishops:

We must help those who are suffering, but we may not use a good end to justify an evil means. Moreover, treatments that (cont. on pg. 4)

**National Sanctity of Human Life Day:** On the third Sunday in January, churches around the United States celebrate God's gift of life, commemorate the many lives lost to abortion, and commit themselves to protecting human life at every stage. With over 3,000 abortions performed in the United States each day, we are fortunate to have a local ministry dedicated to protecting the sanctity of life, right here in our community. Since 2006, First Choice Clinic in Red Wing has been a resource for those facing an unplanned pregnancy. Through the various programs and services they offer at no cost, they are able to empower and encourage people to make life affirming choices. Over the years, First Choice Clinic has helped welcome over 240 babies into the world who might have otherwise been lost to abortion. See the insert in this weekend's bulletin for more information on this local, lifesaving ministry.

### Pro-Life Quote

"Openness to life is at the center of true development. When a society moves towards the denial or suppression of life, it ends up no longer finding the necessary motivation and energy to strive for man's true good. If personal and social sensitivity towards the acceptance of a new life is lost, then other forms of acceptance that are valuable for society also wither away."

## NEWS FROM SAINT MICHAEL AND SAINT PAUL

(cont. from pg. 1) do not require destroying any human life are at least as promising – they are already healing some conditions, and are far closer to healing other conditions than any approach using embryonic stem cells. The choice is not between science and ethics, but between science that is ethically responsible and science that is not.<sup>8</sup>

### **Euthanasia & Assisted Suicide - Pope Emeritus Benedict XVI:**

The freedom to kill is not true freedom, but a tyranny that reduces the human being to slavery.<sup>9</sup>

More and more lonely elderly people exist in big cities, even in situations of serious illness and close to death. In such situations, the pressure of euthanasia is felt, especially when a utilitarian vision of the person creeps in. In this regard, I take this opportunity to reaffirm once again the firm and constant ethical condemnation of every form of direct euthanasia, in accordance with the Church's centuries-old teaching.<sup>10</sup>

### **U.S. Conference of Catholic Bishops:**

Euthanasia and assisted suicide can appear a reasonable and even compassionate solution to the suffering of individuals and families struggling with illness or the dying process. Yet these are not real solutions – they do not solve human problems, but only take the lives of those most in need of unconditional love.<sup>11</sup>
